## Compliance Reporting Details

<b>Reporting Year</b>	2023	<b>Reporting Period</b>	01 Dec(01 Apr - 30 Sep)
<b>Remark(if any)</b>	Enclosed Six Monthly Environmental Clearance Compliance status report for the period APRIL'2023 to SEPTEMBER'2023 of our CHOUTAPALLI LIMESTONE MINE-2.		

## Details of Production and Project Area

**Date of Commencement of Project/Activity** 01-04-2008

	Project Area as per EC Granted(ha.)	Actual Project Area in Possession(ha.)
Private	0	0
Revenue Land	0	0
Forest	0	0
Others	0	0
Total	0	0

### PRODUCTION CAPACITY

Sr.No.	Name of the Product	Units	As per EC Granted	As per CTO Granted	CTO ID	Valid Up To	Production during last financial year
1	LIMESTONE	Million Tons per Annum (MTPA)	0.82	1.82	210522985728	30-06-2026	1.45

## Conditions

### Specific Conditions

Sr.No.	Condition Type	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	Statutory compliance	A Comprehensive conservation plan for wildlife prepared in consultation with the Chief Wild life Warden for implementation within six months before start of mining activity. The plan shall consist of in-built monitoring and evaluation mechanism. Necessary fund for implementation of the same shall be separately allocated and shall not be diverted for any other activity. Status of implementation shall be submitted to the Ministry and the Chief Wild life Warden.	PPs Submission	There are no endangered species in the vicinity of the mines. The certificate is obtained from Forest department, Nalgonda vide RC.No.565/2008/S5 Dt. 09.06.2008. Conservator of Forest, Hyderabad along with DFO, Nalgonda visited in April, 2009. Complied Attachment: NA
2	Statutory compliance	Primary survey of flora and fauna shall be carried out and report submitted to the Ministry within six months.	PPs Submission	The certificate is obtained from Forest department, Nalgonda vide RC.No.565/2008/S5 Dt. 09.06.2008 Primary survey of flora and fauna was carried out and report submitted Complied Attachment: NA
3	MINING PLAN	Reclamation of mined pit shall be done and	PPs Submission	Mining is in operation and reclamation of mined pit will be taken-up as per IBM approved mining plan as per vide Lr No.

		demonstrated on the ground before the next pit is touched. No two pits shall be simultaneously worked i.e. before the first is exhausted and reclamation work completed, no mineral bearing area shall be worked.		AP/NLG/MP/Lst-55/Hyd. Dt. 27.01.2023.. Now, both the MLs are amalgamated as per GO and records are maintained as one mine lease. Complied Attachment: NA
4	MINING PLAN	The subject mining lease (ML area 216.67 ha) shall be amalgamated with the existing lease (ML area 18.211 ha) of the company. After amalgamation mining shall be undertaken from one side at a time.	PPs Submission	? Government of Andhra Pradesh accorded order for amalgamations vide G.O. Ms. No. 328 dated 12th December 2008. ? Lease period is valid up to 31.07.2055. ? Mining is taken up from one side of amalgamated ML area. ? Existing mining lease area i.e. ML-1 is 46.08 Ha. Complied Attachment: NA
5	MINING PLAN	Adequate buffer zone shall be maintained between two consecutive mineral bearing deposits of the amalgamated lease.	PPs Submission	State Government accorded order dt 12.12.2008 for amalgamation of Choutapalli Limestone Mine-1 (1.0 MTPA, 46.08 Ha) & Choutapalli Limestone Mine-2 (0.82 MTPA, 216.167 Ha) as single lease, having common boundary. From January 2009 onwards, we are maintaining all the mine related records (of these two Mining Leases) on single mode. Complied Attachment: NA
6	Corporate Environmental Responsibility	Need based assessment for the nearby villages shall be conducted to study economic measures which can help in upliftment of poor section of society. Income	PPs Submission	Community development activities are being taken up in co-ordination with gram panchayat. Year wise expenditure under CSR at nearby villages as follows. Year Total amount spent under CSR (Lakh Rs.) 2019-20 26.58 2020-21 113.58 2021-22 104.08 2022-23 28.25 2023-24* 31.58 *Apr-Sep?2023 Some of the activities as follows: Skilled development scheme implemented for sustainability near

		<p>generating projects / tools such as development of fodder farm, fruit bearing orchards, vocational training etc. can form a part of such programme. Company shall provide separate budget for community development activities and income generating programmes. This will be in addition to vocational training for individuals imparted to take up self-employment and jobs.</p>		<p>Mellacheruvu and surrounding areas. Infrastructure &amp; sustainable development fund donated to nearby village?s viz., Gundlapalli, Choutapalli and Mattampally. Complied Attachment: NA</p>
7	LAND RECLAMATION	<p>Land-use pattern of the nearby villages shall be studied and action plan for abatement and compensation for damage to agriculture land/common property land (if any) in the nearby villages, due to the mining activity shall be submitted to the Regional Office of the Ministry within six months. Annual status of implementation of the plan and expenditure thereon shall be reported to the Regional Office of the Ministry from time to time.</p>	PPs Submission	<p>No agriculture land/common property land is disturbed due to mining activity. Complied Attachment: NA</p>

8	Statutory compliance	Action plan for economic upliftment of tribals, scheduled cast and economically weak section of society shall be formulated and implemented within six months. Status of implementation shall be reported to the Regional office of the Ministry and the State Govt.	PPs Submission	Community development activities are being taken up in co-ordination with Gram panchayat to the weaker sections. ? 31.58 Lakh spent for the period Apr?23-Sep?23. Some of the Activities: ? Infrastructure & sustainable development fund donated to nearby village?s viz., Mellacheruvu, Venkatrampuram, Gundlapalli, Choutapalli and Mattampally. ? Skilled development scheme implemented for sustainability near Mellacheruvu and surrounding areas. Complied Attachment: NA
9	Statutory compliance	Maintenance of village roads through which transportation of ores and undertaken shall be carried out by the company regularly at its own expenses. The roads shall be black topped.	PPs Submission	There is no road transportation through village roads. Mineral from the subject mine is transported through closed conveyor system. Complied Attachment: NA
10	WATER QUALITY MONITORING AND PRESERVATION	Rain water harvesting shall be undertaken to recharge the ground water source. Status of implementation shall be submitted to the Regional Office of the Ministry within six months and thereafter every from the next consequent year.	PPs Submission	Rain water is collected in mine pit which augment to recharge ground water. Agreed to Comply Attachment: NA

11	WATER QUALITY MONITORING AND PRESERVATION	Ground water in the core zone shall be regularly monitored for depletion and contamination due to mining activity and mitigation measures undertaken to prevent adverse effects.	PPs Submission	? Ground water level and quality is being carried out. ? Piezowells are established for ground water level monitoring and no adverse effects found. Being Complied Attachment: NA
12	LAND RECLAMATION	Measures for prevention and control of soil erosion and management of silt shall be undertaken. Protection of dumps against erosion shall be carried out geo textile matting or other suitable material, and thick plantations of native trees and shrubs shall be carried out at the dump slopes. Dumps shall be protected by retaining walls.	PPs Submission	? No Overburden generation from the subject mine. ? Generated topsoil is being stacked properly and utilized for greenbelt development. Complied Attachment: NA
13	WATER QUALITY MONITORING AND PRESERVATION	Trenches / garland drains shall be constructed at foot of dumps and coco filters installed at regular intervals to arrest silt from being carried to water bodies. Adequate number of Check dams and Gully Plugs shall be constructed across seasonal / perennial nallahs (if any) flowing through the ML area and silts arrested. De-silting at	PPs Submission	? Protection bund around the mine pit was made to arrest flow of silt and sediment. ? Rain water is being collected in mine pit and water utilized for watering the mine area, roads, greenbelt development etc. ? Mine sump storage capacity is 69,857 m3. Mine pit size is made based on the 50% safety margin over and above peak sudden rainfall (based on 50 years data) and maximum discharge adjoining the mine site. Pit is made at the corner of the mine. Complied Attachment: NA

		regular intervals shall be carried out. Garland drain of appropriate size, gradient and length shall be constructed for both mine pit and for waste dump and sump capacity shall be designed keeping 50% safety margin over and above peak sudden rainfall (based on 50 years data) and maximum discharge in the area adjoining the mine site. Sump capacity shall also provide adequate retention period to allow proper settling of silt material. Sedimentation pits shall be constructed at the corners of the garland drains and de-silted at regular intervals.		
14	WATER QUALITY MONITORING AND PRESERVATION	Water to be supplied for drinking purposes shall be treated to meet the prescribed standards. Monitoring of water quality for drinking shall be undertaken on daily basis. Especially for fluoride and arsenic and records maintained.	PPs Submission	R.O Plant is installed for drinking water. Purified water analysis being carried out and records being maintained. Being Complied Attachment: NA
15	WATER QUALITY MONITORING AND PRESERVATION	Occupational health and safety measures for the workers including identification of work related health hazards,	PPs Submission	? Occupational Health center with Resident Medical Officer is established. Health checkups being conducted at regular intervals and records maintained. ? Annual medical check-up conducted for 367 employees by third party M/s. Yodha Diagnostics, Hyderabad on

training on malaria eradication, HIV, and health effects on exposure to minerals dust etc, shall be carried out. The company shall engage a full time qualified doctor who is trained in occupational health. Periodic monitoring for exposure to respirable mineral dust of the workers and shall be conducted and records maintained including health records of the workers. Awareness programme for workers on impact of mining on their health and precautionary measures like use of personal equipments etc. shall be carried out periodically. Review of impact of various health measures undertaken (at interval of five years or less) shall be conducted followed by follow up action wherever required.

10th to 11th sept, 2023. Records of the same are being maintained. ? Persons working in dusty area are provided with PPEs. ? Awareness programs and trainings on health & safety for workers are conducted.at time of induction and periodically.  
Being Complied  
Attachment: NA

16 LAND RECLAMATION  
Top soil solid waste shall be stacked properly with proper slope and adequate safeguards and shall be utilized for backfilling (wherever applicable) for reclamation and

PPs Submission  
Generated topsoil is utilized for greenbelt development and the remaining soil is staked in the external dumps with taking safeguard measures.  
Being Complied  
Attachment: NA

		rehabilitation of mined out area.		
17	MINING PLAN	Over burden (OB) shall be stacked at earmarked dumps site(s) only and shall not be kept active for long period. The maximum height of the dump shall not exceed 30 m each stage shall preferably be of 10 m and overall slope of the dump shall not exceed 280. The OB dumps shall be backfilled. The OB dumps shall be scientifically vegetated with suitable native species to prevent erosion and surface run off. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Ministry of Environment & Forests on six monthly basis.	PPs Submission	No Over burden (OB) generation and Dumps in the mine. Complied Attachment: NA
18	MINING PLAN	Slope of the mining bench and ultimate pit limit shall be as per the mining scheme approved by Indian Bureau of Mines.	PPs Submission	Followed as per approved mining plan. Being Complied Attachment: NA

19	AIR QUALITY MONITORING AND PRESERVATION	Drilling (if any) shall be conducted by using dust extractors / wet drilling. Controlled blasting shall be undertaken.	PPs Submission	? Blasting is done during daytime only in accordance with the DGMS recommendations. Ground vibrations and fly rock are controlled by using non-el bottom initiation detonators. ? Wet drilling is practiced and water spraying is done on haul roads. Being Complied Attachment: NA
20	GREENBELT	Green belt development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Department. Herbs and shrubs shall also form a part of afforestation programmes besides tree plantation. The density of the trees shall be around 2500 plants per ha. The company shall involve local people with the help of self-help group (SHG) for plantation programme. Details of year wise afforestation programme including rehabilitation of mined out area shall be submitted to the Regional office of Ministry every year.	PPs Submission	? Greenbelt is developed in a phased manner. ? Overall 31.88 Ha developed with greenbelt 30,426 No?s saplings as on 30.09.2023 Being Complied Attachment: <a href="#">Click to View</a>
21	WATER QUALITY MONITORING AND PRESERVATION	Regular monitoring of ground water level and quality should be carried	PPs Submission	? Ground water level and quality is being carried out. ? Piezowells are established for ground water quality & levels monitoring. Data of the same is submitted to CGWA & CGWB and IRO quarterly,

		<p>out by establishing a network of existing wells and constructing new piezometers during the mining operation. The monitoring shall be carry out four times in a year- Pre-monsoon (April / May), monsoon (August), post-monsoon (November) and winter (January) and data thus collected shall be regular sent to MOEF, CGWA and Regional director CGWB.</p>		<p>along with six monthly compliance report. Being Complied Attachment: <a href="#">Click to View</a></p>
22	WATER QUALITY MONITORING AND PRESERVATION	<p>The Wastewater from mine shall be treated to conform to the prescribed standards before discharging into the natural stream. The discharged water from the tailing dam (if any) shall be regularly monitored and report submitted to the Ministry of Environment and Forests, Central Pollution Control Board and the State Pollution Control Board.</p>	PPs Submission	<p>No waste water generated from the mine. Waste water generated from vehicle washings are routed to Oil &amp; Grease separator followed by sedimentation trap and finally to on land. For domestic wastewater, septic tank and soak pit are provided. Complied Attachment: NA</p>

23	WATER QUALITY MONITORING AND PRESERVATION	Prior permission from the competent authority shall be obtained for extraction of ground water, if any.	PPs Submission	We have obtained ?NOC? from Mellacheruvu Gram Panchayat, for 3 nos. of bore wells under T.S Walta Act, 2002 vide Lr. No. B/576/2017 dt. 23.05.2017 for Choutapalli limestone mine to operate as per CFO i.e, 75 m3/day. Complied Attachment: NA
24	AIR QUALITY MONITORING AND PRESERVATION	Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transportation of ores and others shall have valid permissions as prescribed under central motor vehicle rules, 1989 and its amendments. Transportation of ore shall be done only during day time. The vehicles transporting ores shall be covered with tarpaulin or other suitable enclosures so that no dust particles / fine matters escape during the course of transportation. No overloading of ores for transportation shall be committed. The trucks transporting ore shall not pass through wild life sanctuary.	PPs Submission	? All the tippers & HEMM are used for limestone transportation are well maintained & are having valid permissions under CMV rules. ? Transportation of ore is done during day time only. The vehicles transporting ore is covered with tarpaulin as well as covered conveyor belt. ? The trucks / conveyor belts are not passing through wild life sanctuary / habitations. ? Overloading of tippers is not practiced. Complied Attachment: NA
25	MISCELLANEOUS	Action plan with respect to suggestions / improvement and	PPs Submission	Was submitted accordingly. Complied

		recommendations made during public consultation / hearing shall be submitted to the Ministry and the State Govt. within six months.		Attachment: NA
26	MINING PLAN	A final mine closure plan along with details of Corpus Fund, shall be submitted to the Ministry of Environment and Forests, 5 years in advance of final mine closure for approval.	PPs Submission	Mine is active and lease is valid till 31.07.2055. Mine decommissioning plan will be submitted 5 years in advance to MoEF&CC. Agreed to Comply Attachment: NA

### General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	MINING PLAN	No change in mining technology and scope of working shall be made without prior approval of the Ministry of Environment & Forests.	PPs Submission	Mine is an opencast and fully mechanized mining practices are adopted. No change in mining technology and scope of working will be done without obtaining prior approval from the Ministry. Agreed to Comply Attachment: NA

2	MINING PLAN	No change in the calendar plan including excavation, quantum of mineral and waste shall be made.	PPs Submission	Excavation is done as per the mining plan and quantum of mineral excavated year wise is mentioned in the table below. Year Proposed (MT) Achieved (MT) 2018-19 18,19,988 16,40,000 2019-20 18,20,000 12,40,000 2020-21 18,20,000 7,49,850 2021-22 18,20,000 13,40,150 2022-23 18,20,000 14,50,000 2023-24*18,20,000 5,93,553 *Apr-Sep? 2023 Note: ML-1 & ML-2 are being operated in single mode with overall EC approved capacity of 1.82 MTPA. Agreed to Comply Attachment: NA
3	AIR QUALITY MONITORING AND PRESERVATION	Four ambient air quality monitoring stations should be established in the core zone as well as in the buffer zone for RPM, SPM, SO2 and NOX monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.	PPs Submission	Ambient air quality monitoring at 8 stations in core zone and buffer zone based on the meteorological data. Ambient air quality parameters are monitored by recognized laboratory. Being Complied Attachment: NA
4	AIR QUALITY MONITORING AND PRESERVATION	Data on ambient air quality (RPM, SPM, SO2 and NOX) should be regularly submitted to the Ministry including its Regional Office located at Bangalore and the State	PPs Submission	Ambient air quality monitoring is carried in core and buffer zone. The data is submitted to SPCB and CPCB. Being Complied Attachment: <a href="#">Click to View</a>

		Pollution Control Board / Central Pollution Control Board once in six months.		
5	AIR QUALITY MONITORING AND PRESERVATION	Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.	PPs Submission	? All measures are taken to control fugitive emissions such as wet drilling water spraying on haul roads etc. Water spraying arrangement is provided at crusher dump hopper and loading and unloading points. ? Fixed water sprinklers are provided haul roads where vehicular movement is more to suppress the dust generated. Being Complied Attachment: <a href="#">Click to View</a>
6	Noise Monitoring & Prevention	Measures should be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc should be provided with ear plugs / muffs.	PPs Submission	Noise levels are monitored at 5 locations in the work zone quarter through MoEF&CC recognized laboratory. All workers are mandatorily provided PPE including ear plugs. Other measures of mechanical nature are being taken to reduce the noise levels below the standards. S. No Location dB(A) Apr-Jun?23 Jul-Sep?23 1. LS Crusher feeder 78.50 76.20 2. Drilling Point 82.60 80.40 3. Dumper Cabin 74.40 78.10 4. Haulage Road 71.90 73.50 5. Loading Area 80.70 79.60 Being Complied Attachment: NA
7	WATER QUALITY MONITORING AND PRESERVATION	Industrial wastewater (workshop and waste water from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December 1993 or as amended from time to time. Oil and grease trap should be installed	PPs Submission	No waste water is generated from the mine. Waste water generated from vehicle washings are routed to Oil & Grease separator followed by sedimentation trap and finally to on land. For domestic wastewater, septic tank and soak pit are provided. Being Complied Attachment: <a href="#">Click to View</a>

		before discharge of workshop effluents.		
8	AIR QUALITY MONITORING AND PRESERVATION	Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imported adequate training and information on safety and health aspects.	PPs Submission	Industry PPEs Provided to all including nose mask. Regular training programme are arranged for safety and health of the workers. Annual health checkup is conducted and Records of the same are maintained. Being Complied Attachment: NA
9	MISCELLANEOUS	A separate environmental management cell with suitable qualified personnel should be set up under the control of a Senior Executive, who will report directly to the Head of the Organization.	PPs Submission	Separate Environment cell exists at site and corporate office with qualified personnel which are under control of Senior Executive, heading the Organization. Being Complied Attachment: <a href="#">Click to View</a>
10	Statutory compliance	The project authorities shall inform to the Regional Office of the Ministry located at Bangalore regarding date of financial closures and final approval of the project by the concerned authorities and the date of Start of land development work.	PPs Submission	Submitted accordingly. Complied Attachment: NA

11	MISCELLANEOUS	The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year-wise expenditure should be reported to the Ministry and its Regional Office located at Bangalore.	PPs Submission	During the period Apr?23 - Sep?23 MHIPL has spent ? 31.58 lakh recurring expenditure towards environmental protection measures in Choutapalli mines. Being Complied Attachment: NA
12	Statutory compliance	The project authorities shall inform to the Regional Office of the Ministry located at Bangalore regarding date of financial closures and final approval of the project by the concerned authorities and the date of Start of land development work.	PPs Submission	Submitted accordingly. Complied Attachment: NA
13	MISCELLANEOUS	The Regional Office of this Ministry located at Bangalore shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information / monitoring reports.	PPs Submission	Full cooperation is being extended to visiting officers. Requisite data / information / monitoring data are being submitted to Regional Office, MOEF&CC, and Chennai regularly. Being Complied Attachment: NA
14	MISCELLANEOUS	A copy of the clearance letter will be marked to	PPs Submission	Copy of the clearance letter submitted to Gram panchayat. Complied

		concerned Panchayat / local NGO, if any, from whom and suggestion / representation has been received while processing the proposal.		Attachment: NA
15	MISCELLANEOUS	State Pollution Control Board should display a copy of the clearance letter at the Regional Office, District Industry Centre and Collector's Office / Tehsildar's Office for 30 days.	PPs Submission	Complied Complied Attachment: NA
16	MISCELLANEOUS	The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and may also be seen at web site of the Ministry of Environment & Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a> and a copy of the same should be forwarded to the Regional Office of this	PPs Submission	Complied - Advertised in 'THE HINDU' dt 12.08.2008 and 'VAARTHA' dt 27.08.2008. Complied Attachment: NA
